

PUBLIC HEARING NOTICE

The Marion County Rural Water District (MCRWD) will be holding a Public Hearing to review an application for a State Revolving Fund (SRF) loan and to make available to the public the contents of an environmental information document and the MCRWD's project plan. These documents include design and environmental information related to the proposed water main connection to the City of Harvey, Iowa.

The proposed project will construct approximately 19,500 linear feet of 6-inch water main and complete improvements to the existing water treatment plant. The new water main will extend from the City of Harvey's existing distribution system on Main Street to MCRWD's existing water main on Old Highway 92. The water main will be primarily trenched in both the right-of-way and on new and existing private easements. Portions of the water main will be directionally bored, including all highways, road, and stream crossings. Service lines will be reconnected to the new water main as necessary. The water treatment plant improvements will include updating control and monitoring equipment, updating the water meter, installing a new generator, replacing the high-service pumps, replacing the aerator, and other miscellaneous piping and interior work. The project will include installing new hydrants along the new water main, miscellaneous site work, and all necessary connections and appurtenances.

The purpose of this Public Hearing is to inform area residents of the community of Harvey of this proposed action, discuss the actual cost and user fees associated with this project, and to address citizen's concerns, if any, with the plan.

The Public Hearing location and time are as follows:

DATE & TIME: 12-16-2026 at 9:00 am
LOCATION: Marion County Rural Water Office
ADDRESS: 1921 Bell Ave. Knoxville, IA 50138

All interested persons are encouraged to attend this hearing. Written comments on this proposal may also be submitted prior to the hearing. Questions regarding this hearing or the availability of documentation may be directed to the Project Contact at 641-842-3304. Additionally, public comments can be sent to SRF-PC@dnr.iowa.gov.
